Ten minutes, one small win

PARENT GUIDE • Keep answer pages separate from the student worksheets.

A repeatable practice routine

1. Recall (2 min): ask what yo, tú, nosotros, and ustedes mean.
2. Model (2 min): do one verb together; say each step out loud.
3. Try (4 min): complete a short worksheet section or an app round.
4. Review (2 min): explain one mistake, then retry it with the guide covered.

Suggested path, at his pace

Sessions 1-2: Module 1 guide + Worksheet A.

Sessions 3-4: Module 1 Worksheet B; practice -ar, then -er/-ir in the app.

Sessions 5-6: Module 1 Worksheet C and a mixed regular round.

Then: Module 2 essential four; special yo forms; stem changes; mixed recall.

Use the readiness targets as practice goals, not grades or requirements.

When he gets stuck

Wrong ending? Ask him to point to the subject row before writing.

Wrong stem? Ask him to circle the infinitive ending and remove only that part.

Irregular verb? Ask which small group it belongs to and what changes.

A correct answer with a missing accent still needs an accent reminder.

Praise a useful strategy: “You checked nosotros before choosing the ending.”

Scope and classroom fit

These materials cover the present indicative, using Latin American subjects.

Vosotros is not used in the core lessons. Other tenses and vos are not covered.

The irregular module is a starter set, not every irregular verb in Spanish.

Check his teacher’s verb list and pacing; these materials can be adjusted.

Spanish nouns are simple on purpose: the task is conjugation, not translation.

App progress

Practice is untimed. Hints and explanations support learning.

Round scores count first tries, including tries after a hint. Missed items can be retried separately. Practice totals stay in this browser and can be reset.

Module 1 / Answers

Use the explanation prompts to discuss mistakes without turning practice into a test.

Worksheet A / Find the pieces

1 yo; 2 ellos/ellas/ustedes (ustedes is most direct); 3 él/ella/usted (ella);

4 nosotros/nosotras (nosotros or nosotras for a group including the speaker).

5 estudi- + -ar; 6 com- + -er; 7 viv- + -ir.

8 as → hablas; 9 emos → comemos; 10 en → viven.

Worksheet B / Practice the pattern

Subject	hablar	comer	vivir
yo	hablo	como	vivo
tú	hablas	comes	vives
nosotros	hablamos	comemos	vivimos
ellos	hablan	comen	viven

B1 estudia; B2 beben; B3 escribo; B4 aprendes;

B5 bailamos; B6 abre; B7 leen; B8 escucha.

Worksheet C / Use it and check it

1 hablo; 2 bebes; 3 vive; 4 escuchamos; 5 leen; 6 abre.

7 Yo hablo. Yo needs -o, not the tú ending -as.

8 Nosotros vivimos. Nosotros needs -imos for vivir, not -en.

C sample answers: Yo estudio español. Nosotros bebemos agua.

Accept other meaningful sentences with correctly matched regular verbs.

What counts as correct?

The verb must match the subject. Nosotras uses the same form as nosotros.

Usted uses the third-person singular form; ustedes uses the plural form.

Spanish may omit yo/nosotros in free writing; accept a clear correct verb.

Accents in supplied subject words (tú, él) should be copied accurately.

Module 2 / Answers

Have him say the subject and explain the special change before looking here.

Worksheet A / Learn the essential four

1 soy; 2 estás; 3 vamos; 4 tienen.

5 soy; 6 está; 7 van; 8 tienes; 9 somos; 10 estamos; 11 voy; 12 tiene.

Worksheet B / Notice what changes

A1 hago; A2 hace; A3 pongo; A4 ponemos.

Verb	yo	nosotros
querer	quiero	queremos
poder	puedo	podemos
pedir	pido	pedimos

C5: Nosotros keeps the original stem vowel in this present-tense pattern.

C6: puedes; piden.

Worksheet C / Mix, recall, repeat

1 hago; 2 quieres; 3 podemos; 4 piden; 5 pongo; 6 está; 7 van; 8 tenemos.

9 Yo tengo. Tener has the special yo form tengo.

10 Nosotros podemos. The stem vowel does not change in nosotros here.

C sample sentences: Soy estudiante. Estoy en casa. Voy a clase.

Tengo un libro. Accept other meaningful, correctly conjugated sentences.

Sample explanation: “Poder changes o to ue, but nosotros is podemos.”

Useful distinctions

Ser and estar both mean “to be”; their uses go beyond this starter guide.

Do not teach them as a strict permanent/temporary split.

Tener is mixed: tengo, tienes, tiene, tenemos, tienen.

The nosotros stem reminder here applies to these present-tense patterns;

other tenses can behave differently.
